Alexandria, VA 22313-1450

Dear Sir:

The Applicant, through its representatives and attorneys, hereby brings to the attention of the examiner the five (5) Japanese language publications, with translations, identified on the accompanying Form PTO-SB/08. Copies are provided. This submission is timely in that it is made prior to a first action on the merits of this application.

These documents were noted in an Office Action dated November 13, 2007 in connection with the Applicant's corresponding application in Japan. A copy of that action is provided, but a translation is not readily available. The relevance of the documents can be seen from the English language versions and the fact of their citation in the Japanese Action.

This will also certify that each item of information contained in this information disclosure statement was cited in a communication from a foreign patent office in a corresponding patent application, not more than three months prior to this submission.

Please take these documents into account in the initial examination of this application, together with the documents previously submitted and the material in the background of the invention in the application as filed, and make their consideration of record.

It is believed that no fee is due with this response. However, if a fee is due, the Director is authorized to charge the deposit account of the undersigned for any fees incurred.

Dated: December 26, 2007

Respectfully submitted,

By
